NOTES TO FORT WAYNE POLICE UNIFORM BID NUMBER 1585
FOR BID OPENING 18 NOVEMBER 1991

1. Winter shirt: Items bid will be made to department specs.
 2. Summer shirt: Items bid will be made to department specs.
 3. Uniform pants: Items bid are manufactured by the Fechheimer Brothers Company of Cincinnati. The manufacturer reports that such trousers meet bid specs other than for pocketing material as material specified is no longer in general use for uniform pockets.
 4. Womens slacks: Items bid are manufactured by SWS Garment Company of Fitzgerald Georgia as per sample provided, with French Blue stripe per spec to be added by bidder at no additional cost. The primary difference between slacks bid and those specified is the use of a serge fabric rather than a gaberdine. The serge fabric as bid is a 55/45 poly/wool blend as is the specified gaberdine.
 5. Mens and womens raincoats: Items bid are from Neese Rainwear. Neese products have been bid as bidder has been advised that Rainfair, the company specified, is on strike at this time. Neese items as bid are constructed to the same specs as the items specified except that such are now made by Neese in a polyurethane nylon fabric which allows the garments to breathe. Bidder believes the ability of these raincoats to breathe, yet be waterproof is a significant advantage.
- A sample of the Neese items bid has been provided.
6. Safariland items: All items are from Safariland as specified. Please note for leather items that these are now made by Safariland in Safarilamine synthetic materials. Such are available with either a high gloss or plain leather-like appearance.
 7. Whistle: Item bid is from the Best Company of New York, a well known military and law enforcement supplier. Bid item is manufactured in the U. S. to be the equivalent of the imported Acme Thunderer. A sample is provided.
 8. Whistle chain: Item as bid is from the Ga-Rel Company or an identical product. Bidder purchases whistle chains from numerous sources and finds all to be identical, each indistinguishable from the next. Bidder uses several sources to insure constant supply.

STYLE
L8500-1

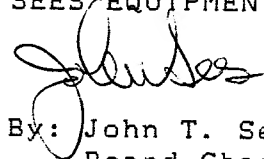

9. Name plate: Item bid is the Blackinton 6041, such being one of many like appearing name plates that have become the industry standard. Items bid are available with a Rhodium or Gold plate finish.
10. Shirt buttons: Items bid are from the Waterbury Company, style 11450. Waterbury believes the 11451 specified to refer to the 11450 under a former numbering system indicating a 24 ligne size shirt button. Style 11450 appears to match the description of the button as specified. Waterbury also reports that said company does not manufacture chrome buttons, believing the buttons as specified to actually be nickel plated.

Should chrome buttons in fact be desired, such can be so plated by an outside contractor with the bid price to be 60 cents each. Delivery time for chrome buttons would be at least seven weeks.

Gold buttons specified are bid as number three gold plate, such being the usual law enforcement standard. All buttons herein are bid complete, including backing washers and toggles, if desired.

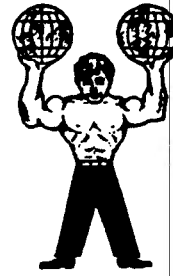

Respectfully submitted,

and the White House. From working with the military and their exacting specifications, we've learned that attention to detail must never waiver.

Some uniform services need proper uniform garments as much for public identification and personal pride as for the comfort and safety features they include. Our U.S. Postal Service garments and transit authority uniforms are typical of such applications.

Fighting Heat, Cold, Wet And Danger

Working with natural resource agencies and the U.S. Border Patrol, we've learned how to meet weather extremes, particularly in protecting against frigid/wet exposure. Our EMT products reflect the fact that impaired freedom of movement costs time and wasted time costs lives.

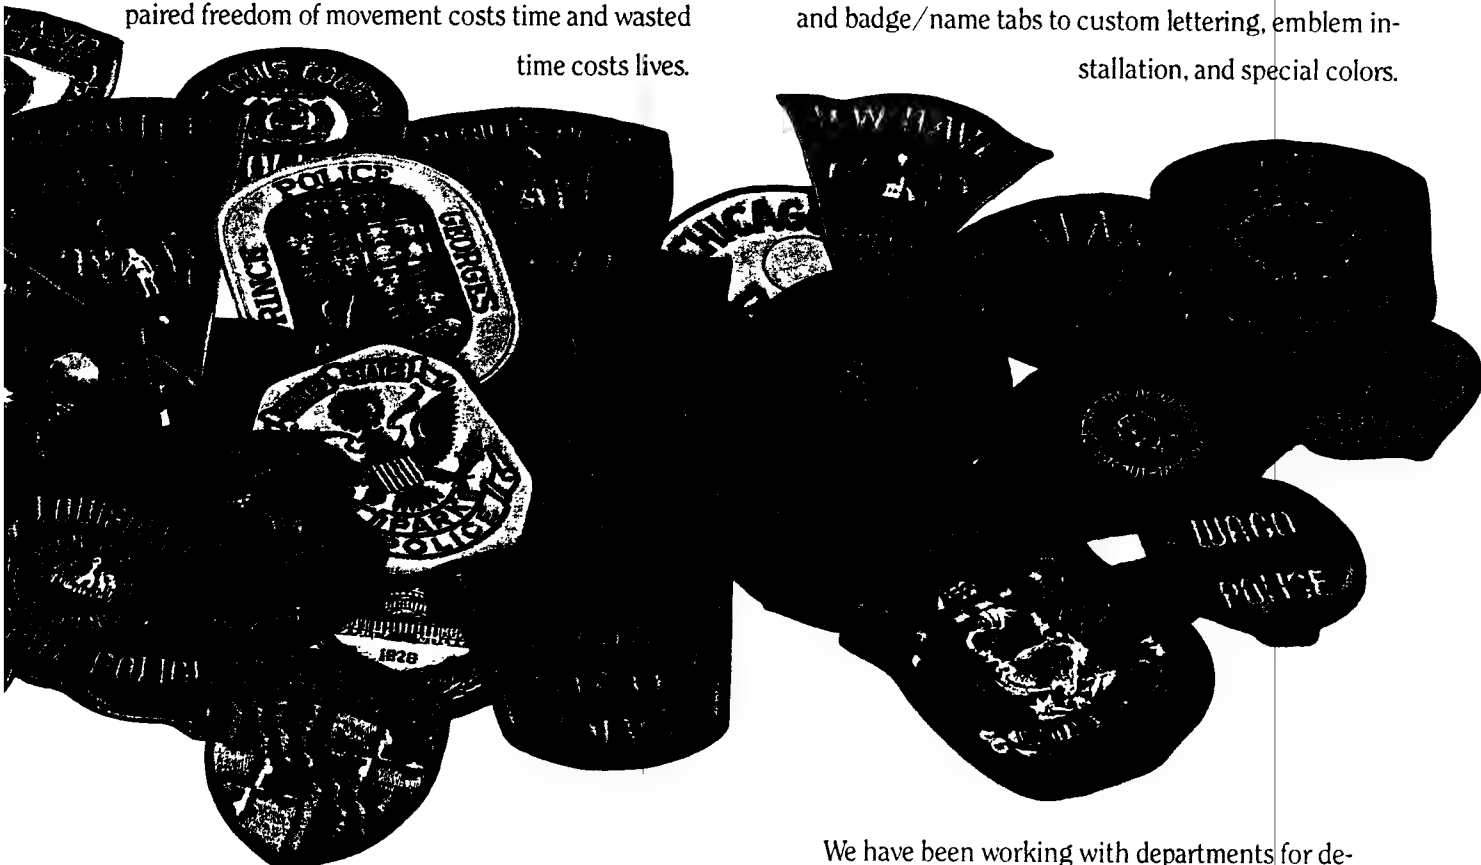

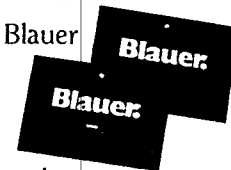

A Warranty To Stand With You

The Blauer reputation was built—and is maintained today—by uniform outerwear which performs as promised. With uncompromising quality for uncompromising performance.

All the Blauer police products shown in this catalog carry three years of warranty coverage. That's three years more than any other outerwear manufacturer offers—despite their claim to match Blauer materials, construction and detail.

We'll Work With You

Many departments have special requirements which we are accustomed to meeting. From epaulets and badge/name tabs to custom lettering, emblem installation, and special colors.

The thousands of garments we deliver to commercial users prove we can work efficiently, hold down production costs and provide exceptional quality control. Blauer garments are at work for such diverse firms as General Motors, United Airlines, Federal Express, Guardsmark and UPS.

Higher Price = Lower Cost

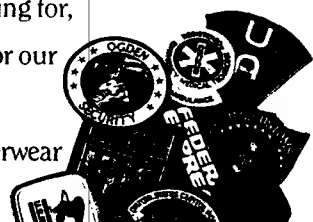

Building outerwear for such higher levels of performance is necessarily more costly.

But we would rather explain that small premium

We have been working with departments for decades and can deliver virtually anything you want. We can also work with you on creating special uniform products, testing samples and bidding.

Obviously, in a single catalog we can show only a small percentage of our many styles and variations. So, if you don't see what you're looking for, contact your Blauer representative or our headquarters.

And be sure to wear uniform outerwear with uncompromising performance.
